

# Ballet Beyond Tradition

For nearly a century, the training of ballet and modern dancers has followed two divergent paths. Modern practitioners felt ballet was artificial and injurious to the body; ballet teachers felt that modern dancers lacked the rigorous discipline and control that comes only from years of progressive training. Ballet Beyond Tradition seeks to reconcile these age-old conflicts and bring a new awareness to ballet teachers of the importance of a holistic training regimen that draws on the best that modern dance and movement-studies offers.
