

A Visitors Review of Westwood Village Memorial Park Cemetery: Haunting Views, Mysterious Vistas & Orbs + Inspiring Photography, Story & Commentary BOOK 1

INTRODUCTION This book constitutes a review of the park from a visitors perspective. This review is of significance to the public and for the public benefit as it informs an opinion of the park. Steve and I visited the park in 2012. In conclusion, it was truly fantastic. There are lots of celebrities buried there including Marilyn Monroe, Karl Madden, Dean Martin and Jack Lemon amongst many others. As a sensitive artist and person, I found the park to be rich with psychic and or paranormal energy., as some of the images will show. In particular, I found a tremendous amount of energy around the areas by Dean Martin, Karl Malden and Marilyn Monroe. I was also overwhelmed with joy in an area back of the park by some benches. The visit to the park was fantastic and I would go again. IN TERMS OF THE PROCESS When I travel, I try to document my experience by taking photographs. I then share that experience with the public in the form of a review so that they may be informed. For these purpose, I photograph everything that impacts me and is relevant in some way. The images in this book come from photographs that I took. Mostly digitized for purposes of artistic expression for increased education from ones sensibilities, and for the public benefit, each artistic photo representing an exploration into experience. I add writing to incorporate a second form of sensual input to further communicate and to review that experience. I thank you for acquiring my book and hope it is useful to you in some way. Grace Divine
