

# Homemade Shampoos: A Complete Guide For Beginners (Homemade Body Care Book 1)

Homemade shampoos offer a great alternative to commercial, store-bought shampoos. Here are a few reasons why: They do a great job leaving your hair healthy and clean. They contain only natural ingredients, and no mysterious chemicals that could harm your body. They are better for your hair, since they don't strip your scalp of oils. They can be made with your favorite essential oils for custom fragrances. They are a lot cheaper than store-bought shampoos. With this book, you will learn everything you need to know to get started with homemade shampoos today. Here are just a few of the things this book will teach you: How to make homemade shampoos for different types of hair. How to make homemade conditioners to complement the shampoos. How to wash hair that's been color treated with homemade shampoos. Why the pH of a shampoo is important for your hair, and which ingredients affect this. How to make shampoos that lather up like store-bought shampoos, without dangerous chemicals. This book contains recipes for homemade shampoos as well as for homemade conditioners. Here are some of the recipes you can prepare today: Coconut milk and castile soap shampoo. Honey shampoo. Soap nuts shampoo. Natural dry hair shampoo. Herb and witch hazel shampoo. pH-balanced natural shampoo. Apple cider vinegar conditioner. Avocado and coconut milk conditioner. If you want an alternative to expensive and possibly toxic commercial shampoos, then this book is for you. To get started, scroll up and click the Buy now with 1 click button!
