

Hygiene: A Salon Handbook

This guide has been fully revised and updated to include all of the latest information on hygiene and safety in the salon. Written specifically for hairdressers and beauty therapists, new chapters are included on the safe use of hairdressing chemicals in the salon and on beauty therapy. Hygiene is suitable for the examinations of the Royal Institute of Public Health, City and Guilds hairdressing to Advanced level, BTEC and the various NVQs in hairdressing. Self testing questions are included throughout, making this an ideal self-learning package for all students of hairdressing. Practising hairdressers will also find this an invaluable reference in the salon.

The Natural Hygiene Handbook: 9780914532408: Medicine Hairdressing and barbers - hygiene standards Manual clippers with non-detachable blades should not be used as they cannot be easily cleaned.
