

Lincolns Assassins: Their Trial and Execution

On April 14, 1865, the president of the United States went to the theater. Five days earlier Lee had surrendered to Grant. The Civil War was over and the North held a jubilee. On that night John Wilkes Booth assassinated Lincoln, and soon the murderer was hunted down and killed by federal troops. But the story of the Lincoln assassination does not end with his state funeral and the death of his killer. *Lincoln's Assassins: Their Trial and Execution* resurrects these events by presenting an unprecedented visual record of more than 200 contemporary photographs, documents, prints, woodcuts, newspapers, pamphlets, books, and artifacts, many hitherto unpublished. Highlights include original albumen prints, cartes de visite, stereo cards, reward posters for the conspirators, the trial transcripts, the manuscript order for execution, and the seminal series of photographs by famed Civil War photographer Alexander Gardner of the conspirators in prison and during their execution. A unique work, the book will appeal to anyone interested in American history, Abraham Lincoln, the Civil War, law, crime, assassination, nineteenth-century photographic portraiture, and the history of American photojournalism.
