

Instant Java Servlets (Book/CD-ROM package)

-- This book is a practical solutions-oriented resource for Java servlet programmers. Unlike a tutorial or an API reference, it focuses on complete solutions to programming problems, providing templates that bridge the gap between a basic understanding of the API and working applications.-- Invaluable resource with ready-to-use solutions packed inside:
-- Comprehensive coverage of 200 servlet programs and solutions that are ready to use-- Large number of individual topics target both beginning and advanced readers-- Alternate focus makes it an ideal companion volume to a developers guide-- E-commerce is driving the internet, and server-side Java will drive e-commerce
