

## Superman for Earth

In a special one-shot story printed on recycled paper, Roger Stern uses Superman as an introduction to ecological issues. After a conversation with his fiancée Lois Lane, Superman decides to start cleaning up the pollution of Metropolis. However, when he starts to see the more global problem of environmental abuse, he begins to wonder how much even the world's greatest super hero can do to prevent Earth from going the same way as his home planet of Krypton. -- goodreads.com
