

A Walk Around the Lakes

A Walk Around the Lakes: A Visit To Britains Lake District 339 pp. Photographs & map. The Lake District, also known as The Lakes or Lakeland, is a mountainous region in North West England. A popular holiday destination, it is famous for its lakes and its mountains (or fells), and its associations with the early 19th century poetry and writings of William Wordsworth and the Lake Poets. The central, and most visited, part of the area is contained in the Lake District National Park, the largest of thirteen National Parks in England and Wales, and second largest in the UK. It lies entirely within Cumbria, shared historically by the counties of Cumberland, Westmorland and Lancashire and is one of Englands few mountainous regions. All the land in England higher than three thousand feet above sea level lies within the National Park, including Scafell Pike, the highest mountain in England. It also contains the deepest and longest lakes in England. Despite the name, only one of the lakes in the Lake District actually contains the word lake in its name, Bassenthwaite Lake, the rest being either meres, waters, tarns or reservoirs.
