If you would like to read the review and see the art/photography go to www.GraceDivine.com Ive traveled to Las Vegas many times. This book comprises a review of that experience. In creating this book I sought to create images that expressed otherworldly meaningful and / or paranormal views and sights that I came upon. The process started with the travel to Vegas. In taking photographs I used my intuition and/or sixth sense to focus on areas that I felt were meaningful. I took thousands of photographs. Afterward, I photoshopped those photos in order to express a feeling which more closely expressed my paranormal or otherworldly experience of the thing. On day, we took a haunted bus tour of Las Vegas. Some of the photo-paintings express those places and were taken from inside a bus. A trip to Las Vegas is always interesting. During my last trip to Vegas I learned that Vegas does have quite a haunted history for as it turns out, amongst other things, Vegas has been rated as the suicide capital of the USA. In addition, because of all the artists that live and work there, the haunted history takes on a celebrity twist which further grows its public appeal. Overall, I highly recommend a visit to Vegas. And this time, not just to enjoy the tremendous hotels, gaming casinos and fabulously talented artists. But also, to enjoy the paranormal haunts and sites.
