

## The Disconnected Generation

The real battle is not in the amoral and immoral influences of our culture, but in the hearts of our young people, says author and speaker Josh McDowell in *The Disconnected Generation*. And our young people are losing hope because they feel isolated and alienated from their parents. They are the disconnected generation. This book shows parents and youth workers how to understand and close the isolation gap to form nurturing, enduring relationships that can withstand cultural influences. As a companion to *The Disconnected Generation*, the video curriculum resources provides five video sessions from Josh McDowell offering practical steps that every adult can take to close the emotional gap between themselves and their children.
