

The Making of the Cretan Landscape

This is the first book to help the visitor understand Crete's remarkable landscape, which is just as spectacular as the island's rich archaeological heritage. Crete is a wonderful and dramatic island, a miniature continent with precipitous mountains, a hundred gorges, unique plants, extinct animals and lost civilisations, as well as the characteristic agricultural landscape of olive groves, vines and goats. Jennifer Moody and Oliver Rackham explain how the island's peculiar and extraordinary features, moulded and modified by centuries of human activity, have come together to create the landscape we see today. They also explain the formation and ecology of Crete's beautiful mountains and coastline, and the contemporary threats to the island's fragile natural beauty.

The Making of the Cretan Landscape: : Oliver Rackham This book, which is designed for the visitor, describes the historical development of the environment and landscape of Crete, and its present characteristics and The Making of the Cretan Landscape - YouTube - 30 sec - Uploaded by yui nhuThe Making of the Cretan Landscape. yui nhu.
